GyanTV Subscription Cancellation Discussion Guide

AI Voice Agent Interview (3-Minute Maximum)

OPENING & CONSENT (30 seconds)

Agent Introduction:
"Hello [User Name], this is a brief call from GyanTV. We noticed you recently canceled your subscription, and we'd genuinely like to understand why. Your feedback will help us improve the app for everyone. Do you have 3 minutes to chat with me? This will help us build a better learning experience."

Consent Confirmation:

- "Before we start, I want to confirm: Is it okay if I ask you a few quick questions about your experience?"
- *Wait for affirmative response*
- "Thank you. Also, just so you know, this conversation is being recorded for quality purposes only. Is that alright with you?"
- *Proceed only after clear consent*

SECTION 1: INITIAL REASON (45 seconds)

Q1: Open-Ended Discovery

"I'd love to hear from you—what was the main reason you decided to cancel your subscription?"

Listen actively. Do NOT interrupt. Allow 10-15 seconds of silence for response.

Agent Notes for Follow-up Pathways:

- *If user mentions cost:* → Proceed to Q2a
- *If user mentions content:* → Proceed to Q2b
- *If user mentions lack of use:* → Proceed to Q2c

- *If user is unclear or says "just didn't need it":* → Proceed to Q1a
- *If user mentions technical issues:* → Proceed to Q2d

Q1a: Clarification (If Response is Vague)

Only ask if needed

"Could you tell me a bit more about that? Was there something specific that didn't meet your expectations?"

SECTION 2: PROBING DEEPER (1 minute 15 seconds)

PATHWAY A: PRICING/COST CONCERNS

Q2a: "You mentioned cost. Can you help me understand—was it the subscription price itself, or did you feel the value wasn't worth what you were paying?"

Follow-up Branch (based on response):

If price is too high:

- "What price point would feel more reasonable to you for a bite-sized learning platform like GyanTV?"
    - Listen for: Specific amount, comparison to competitors, frequency preference

If perceived low value:

- "What would need to change for you to feel like the subscription was worth the investment?"
    - Listen for: Course quality, content volume, certificate value, features

---

PATHWAY B: CONTENT QUALITY/RELEVANCE

Q2b: "You mentioned the content. Was it that you didn't find courses relevant to what you wanted to learn, or was the quality of the courses not what you expected?"

Follow-up Branch (based on response):

If content not relevant:

- "What topics or skills were you hoping to find on GyanTV that you couldn't?"

If quality concerns:

- "What specifically could we improve about how courses are taught or structured?"

PATHWAY C: LACK OF USE/ENGAGEMENT

Q2c: "It sounds like the app wasn't getting used as much as you expected. What prevented you from using it regularly?"

Follow-up options:

- "Was it that you couldn't find the time?”
- “or that something about the app wasn't engaging enough to keep coming back?"
- "Were the courses not in a format that worked for you (e.g., too short, too long, preferred video over text)?"

PATHWAY D: TECHNICAL ISSUES

Q2d: "You mentioned a technical issue. Could you describe what went wrong? Did you try to reach out for support?"

Follow-up:

- "How did the support experience go, if you contacted us?"

SECTION 3: COMPETITIVE/ALTERNATIVE OPTIONS (30 seconds)

Q3: Probing for Alternatives

Ask this only if time permits and context allows

"Before canceling, did you try other learning apps, or are you planning to use a different platform instead?"

Listen for: Competitor names, specific features valued elsewhere, app-switching behavior

---

SECTION 4: WINBACK OPPORTUNITY (30 seconds)

Q4: Recovery Intent

"Is there anything we could do to earn back your subscription in the future, or have you decided GyanTV isn't the right fit for you?"

Listen for: Conditional interest, deal sensitivity, feature requests, permanent disinterest

Agent note: Avoid aggressive sales pitch. Frame as genuine interest in improvement.

CLOSING (15 seconds)

Agent Closing Statement:
"Thank you so much for being honest with us. Your feedback is really valuable and will help us improve GyanTV. We hope to welcome you back soon. Take care!"

Internal Note: Log all feedback in structured format (see taxonomy below).

TONE & DELIVERY GUIDELINES FOR AI AGENT

DO:

✓ Use a warm, empathetic tone—acknowledge their decision respectfully
✓ Use natural pauses (2-3 seconds) to let users think and speak fully
✓ Reflect back what you hear: *"So if I'm understanding correctly..."*
✓ Thank them genuinely for each response
✓ Keep language simple and conversational (avoid jargon)
✓ Ask one question at a time
✓ Allow silence—don't rush to fill gaps

DON'T:

✗ Sound robotic or rushed
✗ Interrupt or finish sentences
✗ Dismiss concerns or make excuses ("That's not really a problem...")
✗ Ask multiple questions in one breath
✗ Push back on feedback or attempt hard-sell recovery
✗ Make assumptions about why they canceled
